

# COMPANY PROFILE

**BOUTIQUE DISTRIBUTOR FOR BENELUX COUNTRIES** 

Latest update: MAY 2024

### **BRIEF INTRODUCTION**

#### History

2moso was established in 2005 and began by importing and distributing colorful designer bags and sleeves for MacBooks (iBook, PowerBook etc.). At that time, the market was primarily dominated by standard black, durable bags. 2moso's new and innovative range offered a welcome breath of fresh air while fulfilling a need in the market for Apple Resellers and online retailers, who soon found their way to 2moso. Due to the increasing popularity of the iPod, the range of products was expanded to include cases and this allowed 2moso to firmly establish itself as a major supplier of exclusive Apple accessories for consumer electronics. Since the beginning, the range of products has been steadily expanded with top-of-the-range quality brands.

#### Present

2moso currently mainly operates within the sports channel. Since 2012 we started developing this channel and began to build our product portfolio for endurance sports. Within the sports channel Biking & Running are the sports which stand out. Add Swimming to the the mix and you can do a Triathlon.

We do this with the same vision as we started:

To make people happy with beautiful and functional accessories

### **OUR VISION & MISSION**

What is a distributor's function in this day and age? We believe there are brands and markets that have specific elements that are suitable for a local distributor. We see ourselves as a boutique distributor, which basically means that we serve niches. Sometimes we require several niches in order to be able to offer a certain service or reach a certain commercial level, so that we can operate effectively. But that's fine, as long as each of the stakeholders is happy. We know which volumes we need to generate so that our back office operates efficiently.

**Our mission?** To provide a stable organization for all stakeholders, to build long-term relationships and to have some fun along the way!

#### **MARKET KNOWLEDGE**

We have people out there who visit clients and participate in events and networking events. This generates a lot of knowledge, expertise and leads.

#### **SUPPLY CHAIN**

We have our own warehouse and client-connected IT systems, which means that we can move products efficiently. We also function as an extra stock keeping unit.

#### **BRAND BUILDING**

We love all brands and the way in which we use them allows us to act much like an extension of the vendor.

### **OUR COMPANY TIMELINE**

2005 - 2018

#### **FOUNDING**

2moso began as a home-based company and was founded by **2** people: **mo**ther, Ellis van Baalen, and her **so**n, René Knierim.

2009

#### **>100% YOY GROWTH**

After managing the first period of growth and moving to an office with its own warehouse in 2009, we hired our first personnel to help us manage future growth.

#### **REACHING THE FIRST PEAK**

2012 marked a turning point in the history of 2moso. After experiencing growth >100% YOY, winning several awards and expanding our offices, warehouse capacity and staff we saw the first signs of a changing market situation on both macro and micro levels. This saw us change our strategy from growth to consolidation.

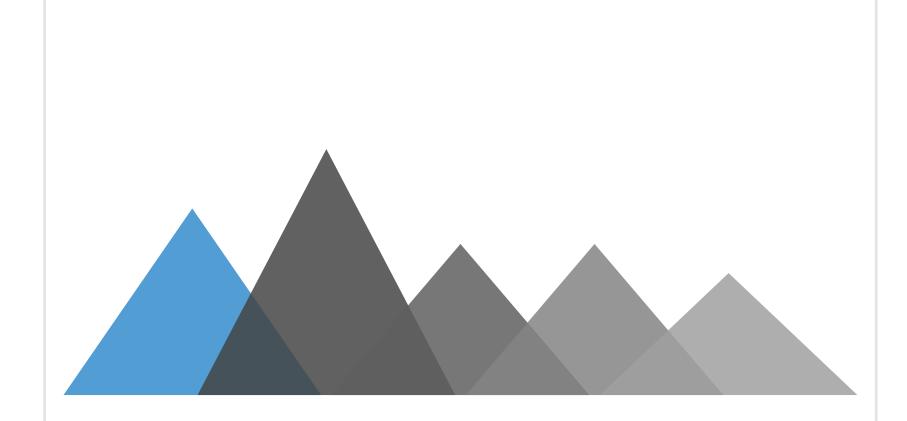

2015

#### **ENTERING NEW CHANNELS PAYS OFF**

Since 2012, we have made a serious effort to establish ourselves by launching a number of new brands in the sports channels that serve the biking and running specialty stores. In 2015 we saw the potential and capitalized on this opportunity, which led to 2moso becoming an established and well-known distributor.

#### **SECOND GROWTH PHASE**

While the mobile channel continued to consolidate, the sports channel continued to grow rapidly. In an effort to accommodate this rate of growth, we once again expanded our offices, warehouse capacity and staff. For the first time in 2moso's history, 2017 saw the sports channel outgrow the mobile channel.

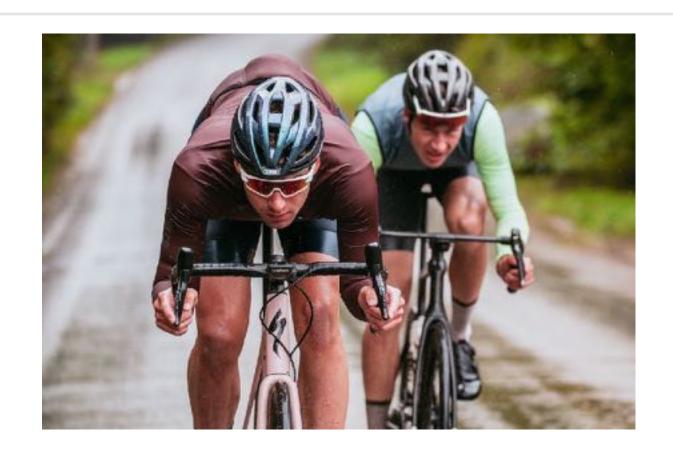

2020

#### 2MOSO & COVID

2020 has been a turbulent year in many ways. We were lucky enough to be in a channel where demand surged due to Covid-19. Managing the lack of supply was our greatest challenge.

#### TRANSITION TO SPORTS

2021 was still a Covid-19 year where demand was very high in our sports channels. We also introduced several new sport related brands and parted with some long lasting mobile suppliers. This marks our final transition from a mobile accessory business to a sports accessory business.

#### **RELAPSE**

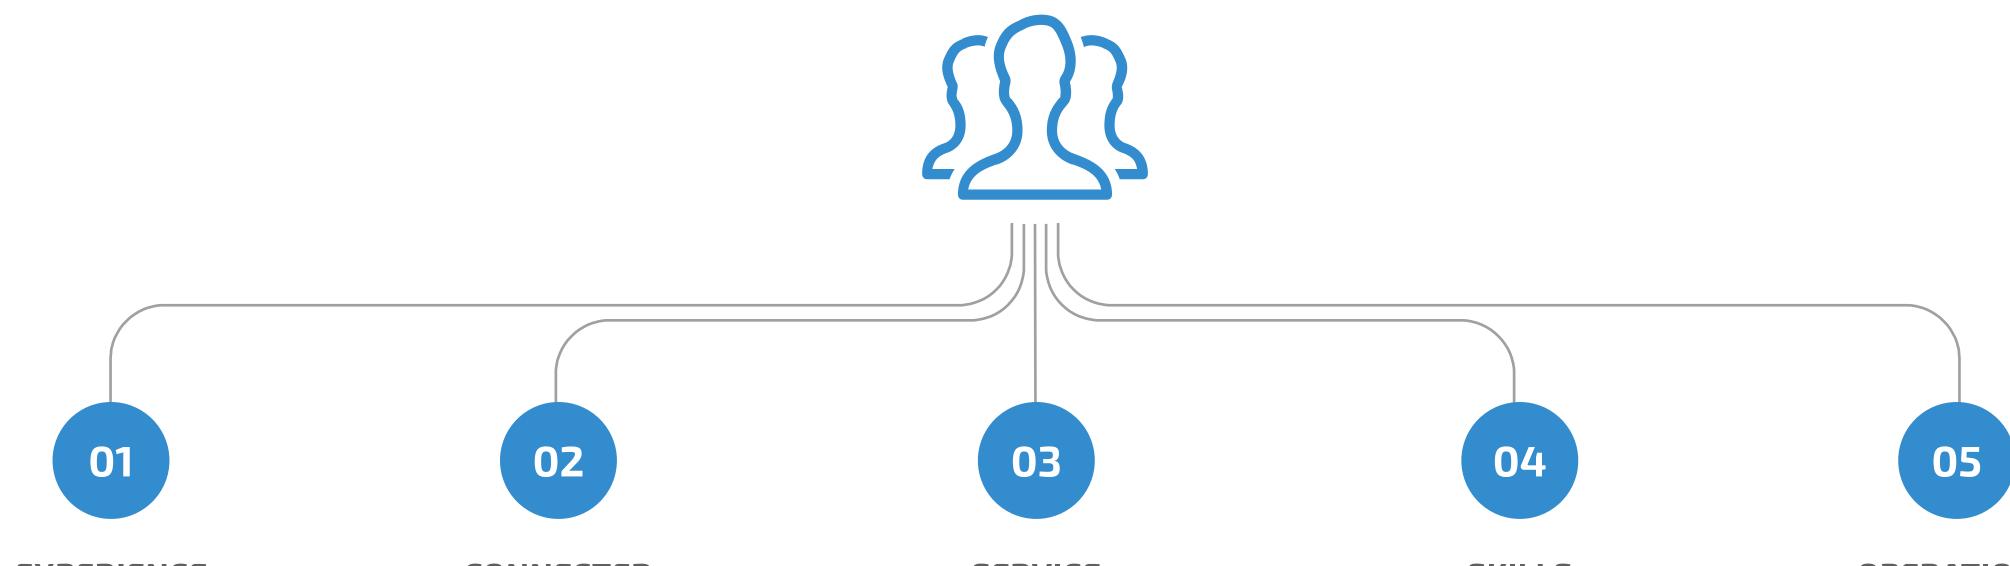

2022 and a large part of 2023 were a challenge due to overstock in the channel, global unrest and surging inflation. It was only until Q4'23 that we saw good results coming back.

### **OUR TEAM'S EXPERTISE**

What can you expect from our team?

#### **EXPERIENCE**

Strong management team and years of experience in the industry

#### CONNECTED

A well-connected team, due to our relationship marketing and industry partnerships

#### **SERVICE**

A backoffice team, which is all about service, personal relationships and long-term 2moso employees

#### **SKILLS**

A specific set of skills in each department, which is actively supplemented through training and experience

#### **OPERATIONS**

Always up to date with the latest IT developments.
Connections with several clients. Automated warehouse processes
