

KICKRmove

smart bike trainer

REAL YOU CAN FEEL.

2 KICKR HEADWIND

Smart fan can be manually controlled, paired to your phone via bluetooth, or connect to ANT+ speed sensors, heart rate monitors and smart trainers to blast riders with up to 30 mph of targeted, cooling airflow.

3 KICKR CLIMB (KICKR CLIMB BASE ADAPTER)

Grade simulator positions riders to simulate up to 20% incline or 10% descent and pairs to the KICKR Smart Trainer to deliver an unmatched training experience.

** You must purchase the KICKR CLIMB Base Adapter in order to use it with KICKR MOVE.*

1 KICKR MOVE

KICKR MOVE offers the only integrated natural movement solution right out of the box. No additional attachments or accessories required. Just set up your KICKR and start riding.

FORE AFT MOVEMENT

Built-in, dual-axis movement and KICKR's legendary flywheel technology, KICKR MOVE allows your bike to travel freely when powering through indoor rides and workouts.

ULTIMATE COMFORT

The movement unleashed by its dual-axis movement reduces fatigue and improves overall efficiency, allowing you to train longer and harder than ever before.

SERIOUS AND PRECISE POWER

KICKR MOVE is designed to satisfy the demands of the most powerful cyclists in the world. Incredibly stable. Quietly powerful. Precisely accurate. Completely connected.

GET THE MOST OUT OF YOUR KICKR TRAINING EXPERIENCE WITH WAHOO'S TRAINING APPS - DOWNLOAD NOW!

STRUCTURED TRAINING

Use your KICKR MOVE with Wahoo SYSTM to get the most out of your training sessions. Our cutting-edge sports science automatically tailors the workouts to you to get ready for your next race.

MANAGE YOUR KICKR

Download and use our Wahoo Fitness App to set up your KICKR BIKE SHIFT. Connect your devices to the WiFi, pair sensors, and record workouts all on your smart device.

ELEMNT GPS BIKE COMPUTER

The ELEMNT GPS bike computer directly controls KICKR BIKE SHIFT in multiple modes including re-riding outdoor routes, importing planned workouts or setting your target watts.
